🌐 ali-oliaee.ir

Enthusiastic and self-motivated developer with 2+ years of experience in the IT industry. Proven ability to work independently and as part of a team, and to deliver high-quality results on time and within budget. Expertise in a variety of technologies, including Typescript, ReactNative, and React. Strong problem-solving and analytical skills, with a passion for learning and staying up-to-date with the latest technologies.

Experience

Mobile Developer

Oct 2022 - present

Felixin

- Led the development and improvement of mobile apps using React Native, delivering high-quality results that exceeded user expectations.
- Significantly expanded my knowledge of iOS and Android ecosystems.
- Collaborated effectively with international teams, demonstrating cultural sensitivity and adaptability.
- Improved my English language skills to a near-native level, enabling me to communicate effectively with colleagues and clients from around the world.
- Successfully transitioned to a remote work environment, maintaining productivity and delivering results on time and within budget.
- Managed large-scale business projects with confidence and skill, ensuring their successful completion and release.
- Worked as an integral part of a professional team, contributing to its success and learning from experienced developers.

Frontend Intern

Nov 2021 - March 2022 (4mos)

ArashWeb

- Gained valuable experience working on real-world projects in a fast-paced environment.
- Collaborated effectively with team members to deliver high-quality results on time and within budget.
- Developed strong problem-solving and analytical skills through hands-on experience.
- Expanded my knowledge and expertise in frontend stacks, particularly React and JavaScript.
- Implemented agile methodologies such as Scrum and Trello to manage tasks and plans efficiently.

Education

University

2019 - present

Quchan university of technology

- Bachelor of Computer Engineering

High School

2017 - 2019

- Mathematics and physics diploma

Skills

- | | | | |
|-----------------|----------------|--------|-------------------|

React Native Styles Generator Extension

[Source code](#)

[Preview](#)

The React Native Styles Generator Extension is a Visual Studio Code extension that helps developers create React Native stylesheets. It is a valuable tool for developers who want to create more efficient and effective React Native stylesheets.

Data Structures and Algorithms Visualization

[Source code](#)

[Demo](#)

The project is designed to help you understand how different data structures and algorithms work, and how they can be used to solve different problems. The project is divided into several sections, each of which covers a different data structure or algorithm. Each section includes a detailed explanation of the data structure or algorithm, as well as a visualization of how it works.

Movie App

[Source code](#)

[apk file](#)

Developed a movie app that provides users with detailed information about movies and series. The app features a user-friendly interface that allows users to easily search for and discover new content.

- The app is built with React Native, which means it is available for both Android and iOS devices.
